

Table below presents testing strategy in the schools based on the COVID-19 risk assessment.

COVID-19 risk level	COVID-19 Risk Level	Goals of Testing	Testing Strategy
Low	Very Low	Identify or rule out COVID-19 infection in students and staff	Continued mitigation measures in school. Students and staff are offered
Moderate	Moderate	Reduce the probability of transmission within the school using routine screening by rapid antigen test. Continue to offer accessible and verifiable diagnostic testing.	A routine screening program that carefully balances test frequency, accuracy, and time to results is implemented for all students and staff to significantly reduce infection transmission. Students and staff are offered diagnostic testing as needed. If a confirmed positive case is found, all individuals in that classroom are quarantined and tested.
High	High	Monitor for an increase in infection	No in-person learning for students
